TIMELESS COMFORT FOR EVERY HOME

Founded in 2020, Ghia Industries (Pvt) Ltd. has rapidly evolved into a leading manufacturer of premium home textiles. Through continuous innovation, technical precision, and reliability, we produce quilted products, bedding, and home essentials that bring lasting comfort and sophistication to homes around the world.

Our state-of-the-art facility, located within the Karachi Export Processing Zone, integrates advanced machinery and expert craftsmanship. This synergy allows us to maintain consistent quality standards across all operations—from sourcing to shipping. Today, Ghia Industries stands as a trusted name among domestic and international buyers, committed to excellence, ethics, and long-term partnerships.

MISSION STATEMENT

**TO DELIVER INNOVATIVE,
STYLISH, AND DURABLE
HOME TEXTILES EVERY
CORNER OF YOUR HOME**

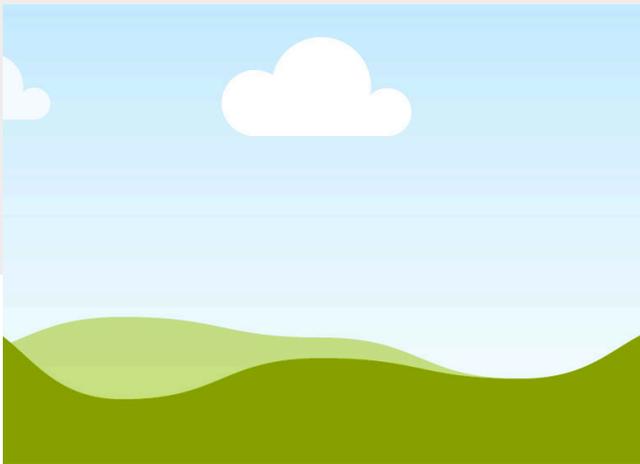

To become a global benchmark in home textiles, admired for our quality, creativity, and sustainable practices making Ghia Industries a household name across continents.

VISION STATEMENT

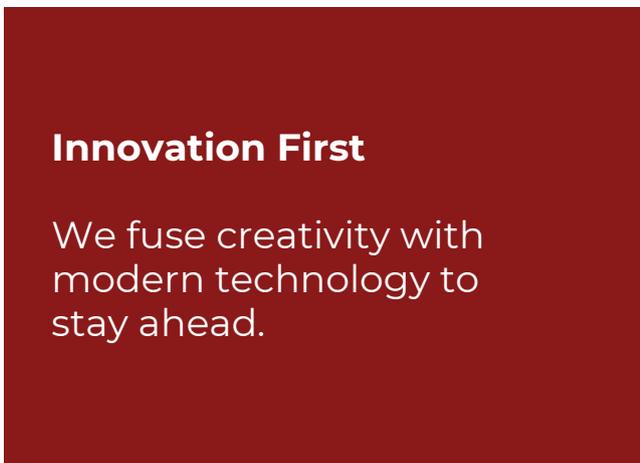

CORE VALUES

Ethics and accountability
lie at the heart of every
decision.

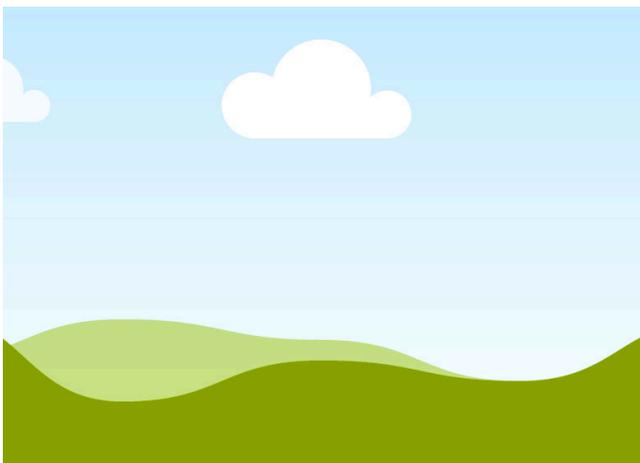

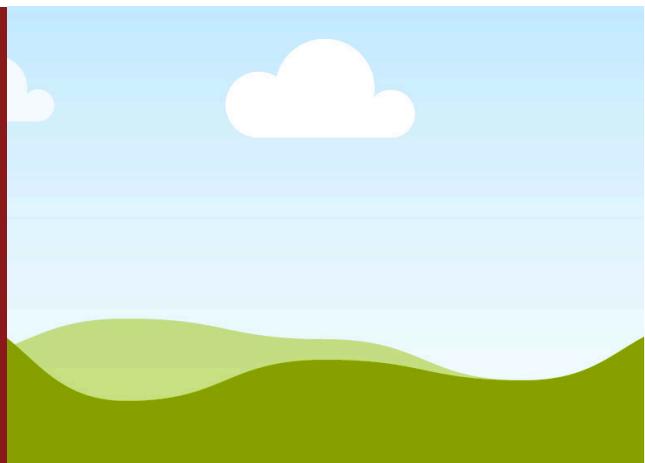

Excellence in Quality

We set new standards with
every product we make.

Innovation First

We fuse creativity with
modern technology to
stay ahead.

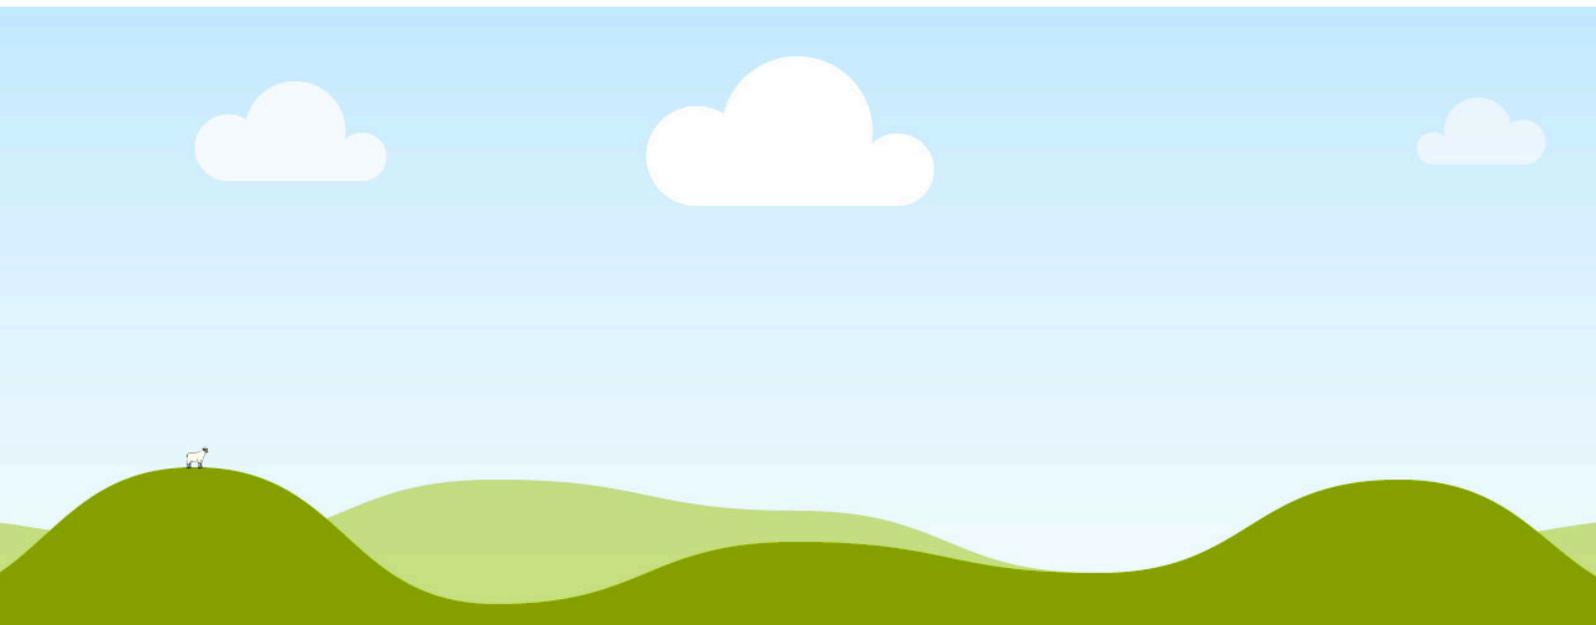

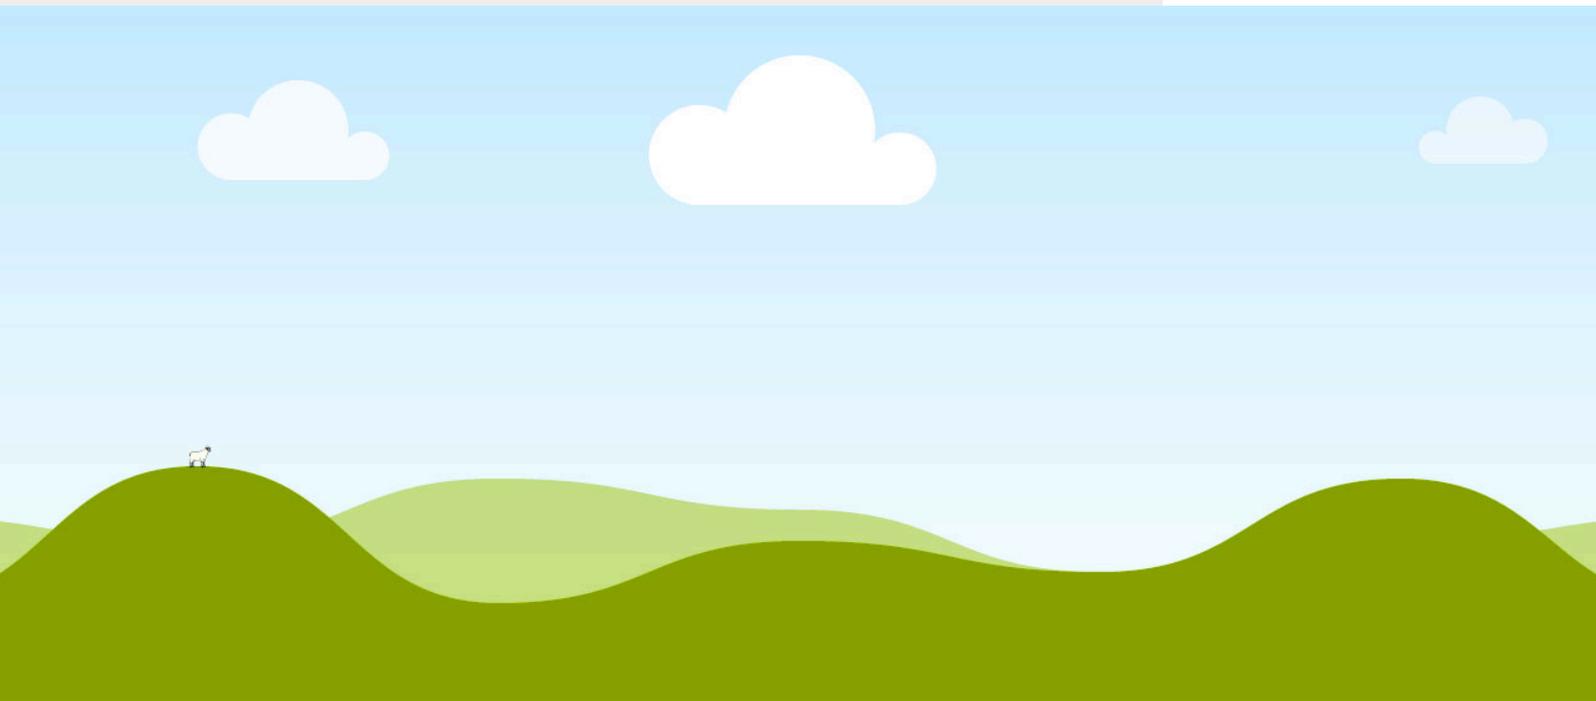

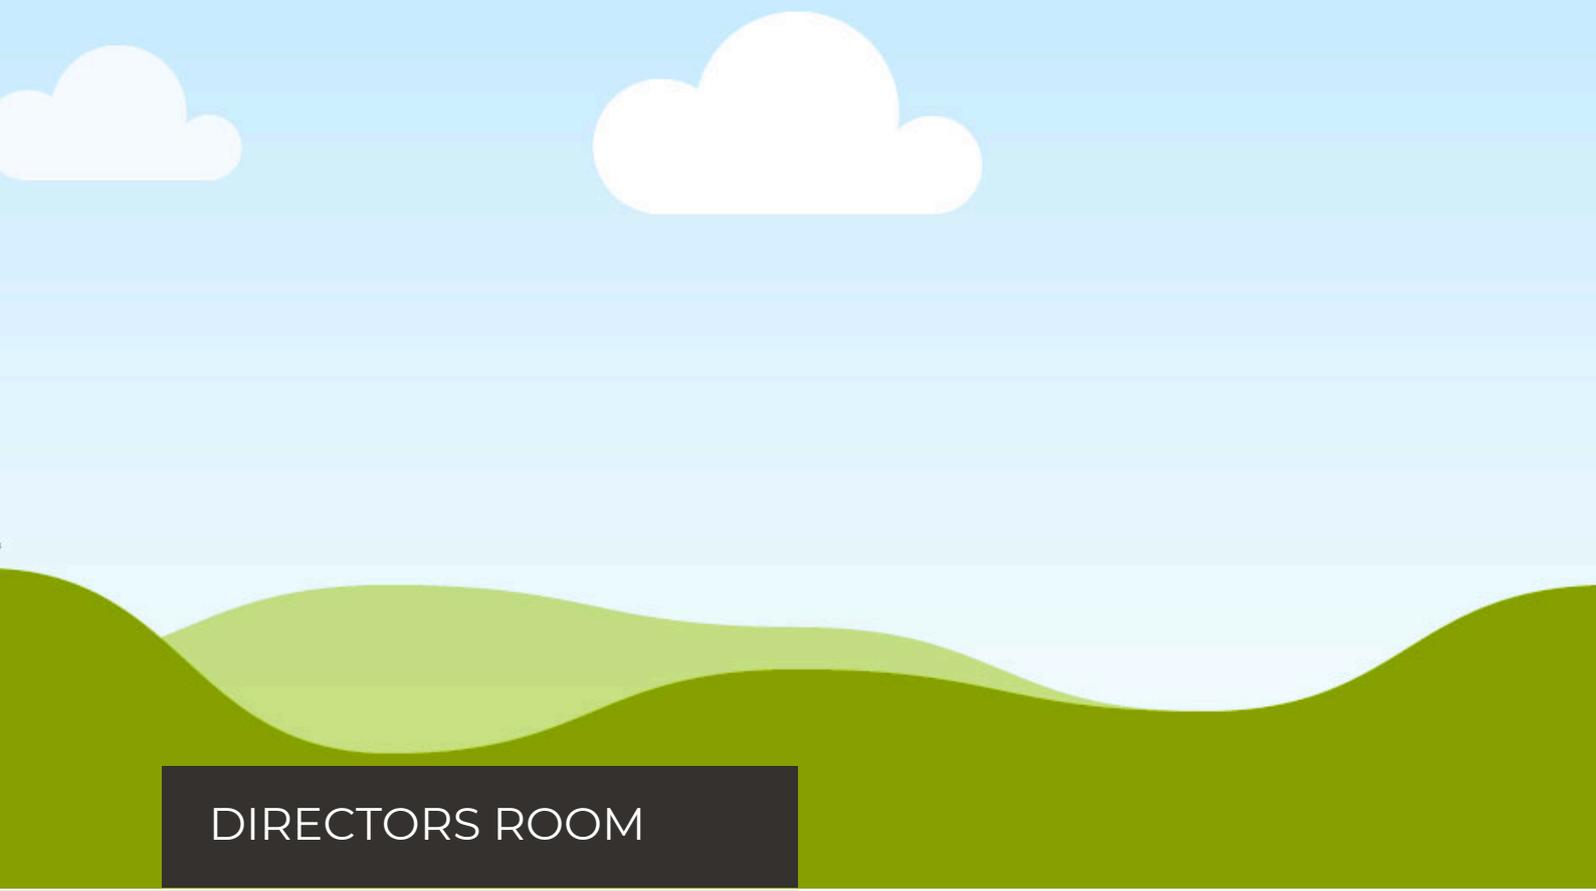

Customer Partnership

We grow through trust,
transparency, and shared
success.

WHY CHOOSE US

- Fully integrated production from raw material to finished goods.
- Large-scale manufacturing capacity with international certifications.
- State-of-the-art automated machinery ensuring accuracy and consistency.
- Strong partnerships with leading global brands.
- 100 percent quality assurance at every production stage.
- Timely deliveries with competitive pricing.

DIRECTORS ROOM

CORPORATE DEPARTMENTS

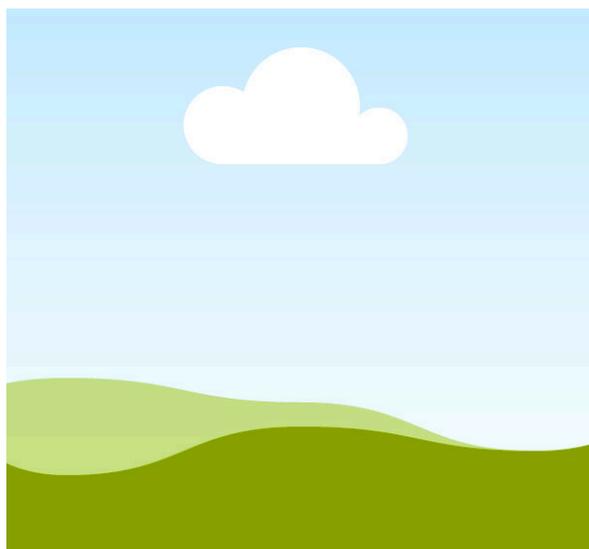

At the core of Ghia Industries lies visionary leadership. The Director's Office defines the company's strategy, steering innovation and growth. Every major decision whether about production efficiency or market expansion reflects our long-term commitment to quality and excellence.

CORPORATE DEPARTMENTS

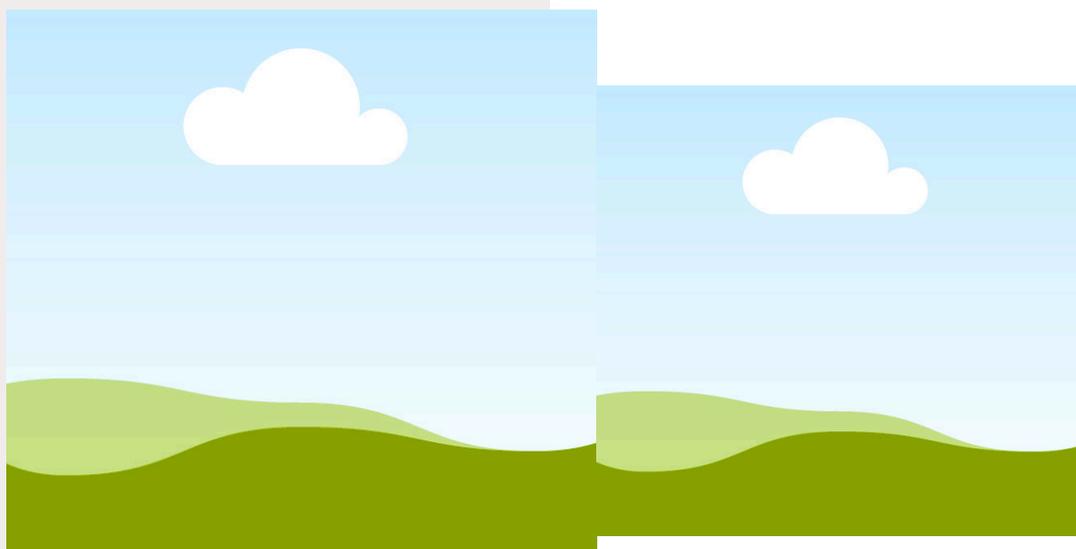

ACCOUNTS OFFICE

The Accounts Department ensures the company's financial backbone remains strong. Order planning, costing, and export documentation are managed here with meticulous precision, ensuring transparency and compliance across global operations.

MERCHANDISER OFFICE

Our merchandising professionals act as the bridge between clients and production. They oversee fabric sourcing, product development, and order timelines ensuring smooth coordination from concept to shipment while maintaining open communication with our global buyers.

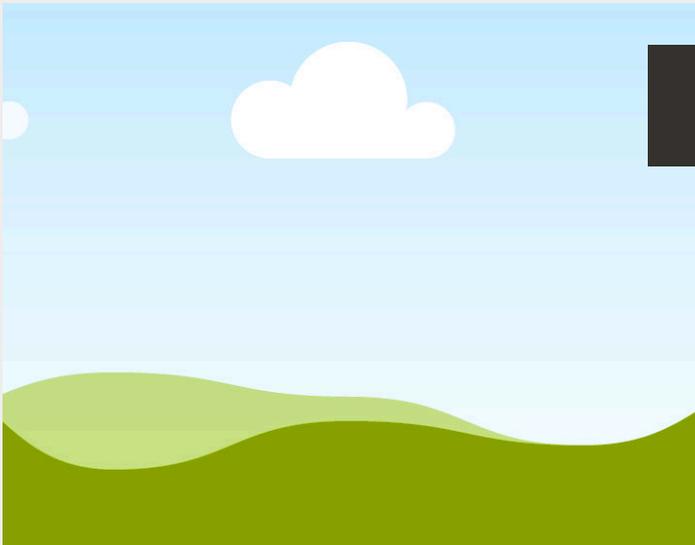

CONFERENCE ROOM

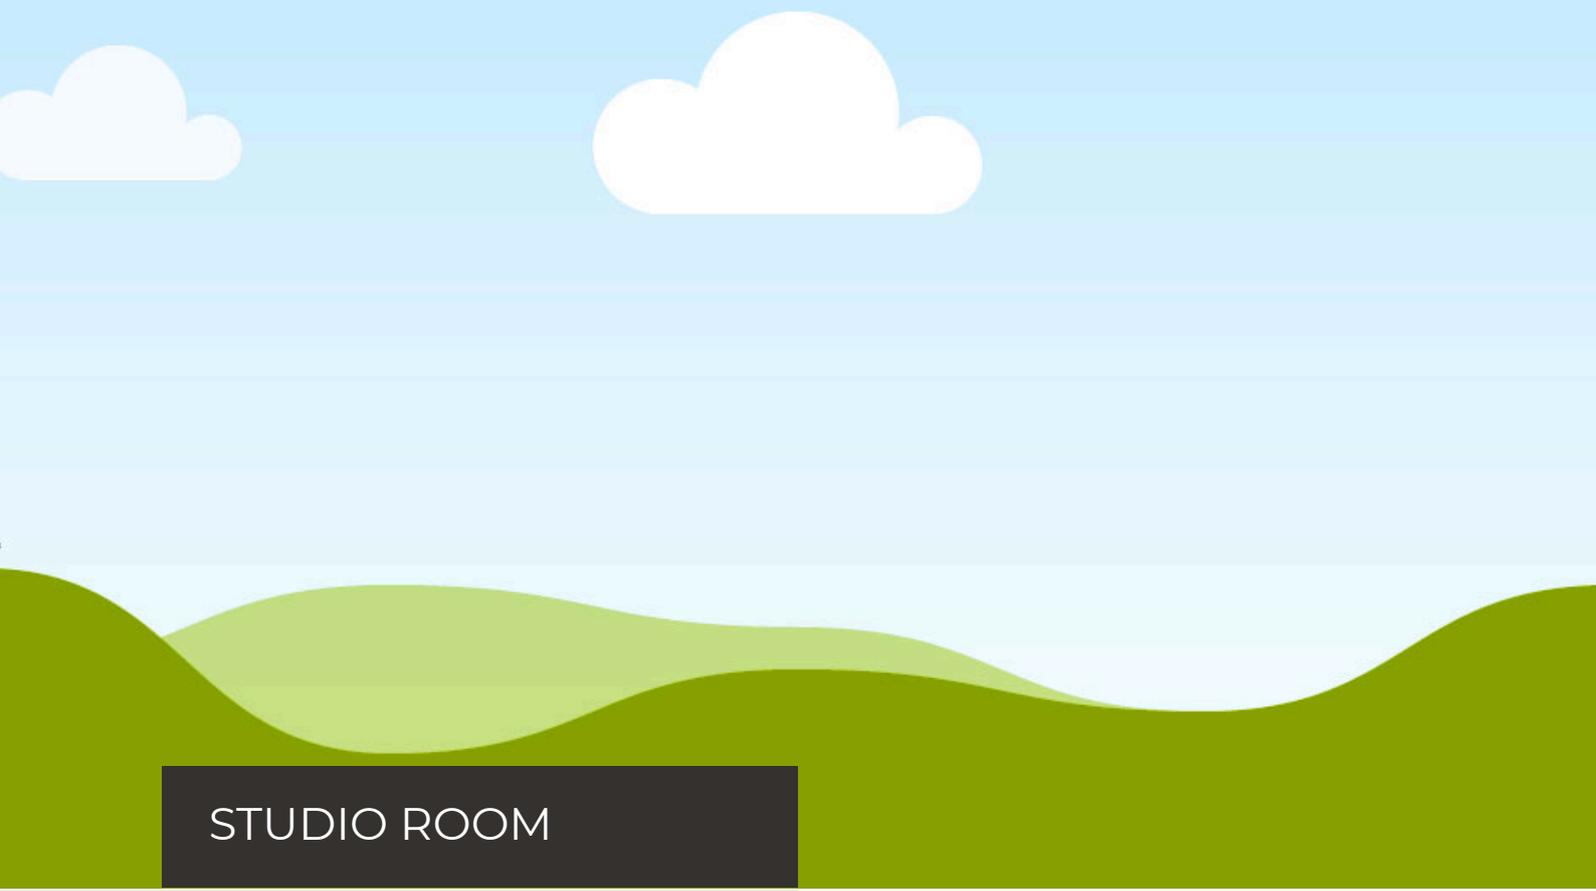

CORPORATE DEPARTMENTS

Our Conference Room serves as a dedicated space for client meetings and presentations. It's where ideas are aligned, projects are discussed, and collaborations are finalized in a professional and comfortable setting.

GUEST ROOM

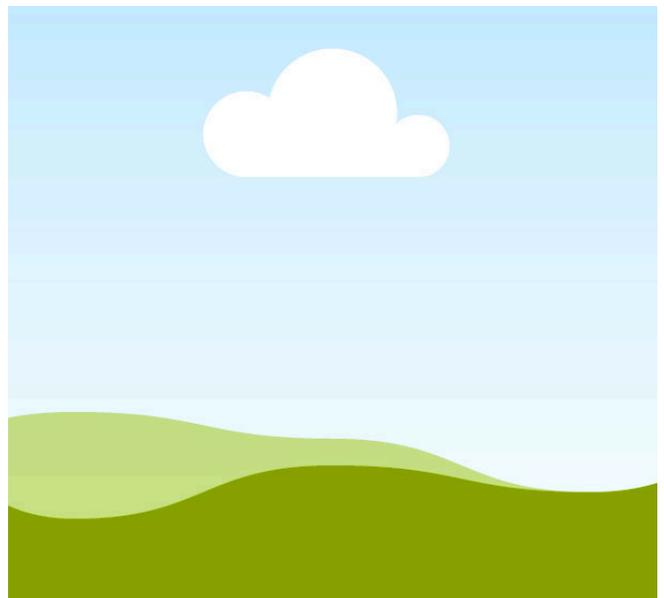

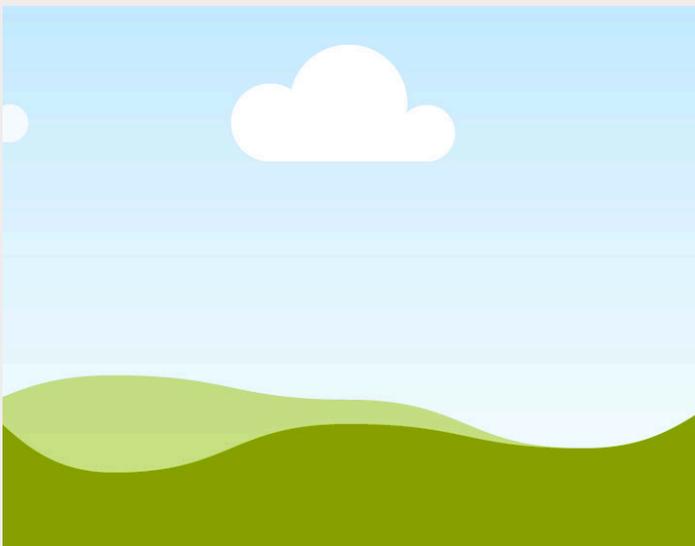

A calm environment designed for the comfort of our external auditors and guests.

STUDIO ROOM

CORPORATE DEPARTMENTS

The Studio Room brings creativity to life. Here, professional photography and media teams capture every product's finest detail for catalogues, campaigns, and digital platforms ensuring the brand's premium aesthetic is consistently represented worldwide.

GLOBAL WORKFLOW & QUALITY PROCESS

Every order at Ghia Industries begins with a vision. A promise of quality that transcends borders. Our workflow ensures precision and transparency from the first inquiry to the final delivery.

Before shipment, our Quality Control Team travels to partner mills to inspect every fabric roll testing weave consistency, color tone, GSM, tensile strength, and color fastness.

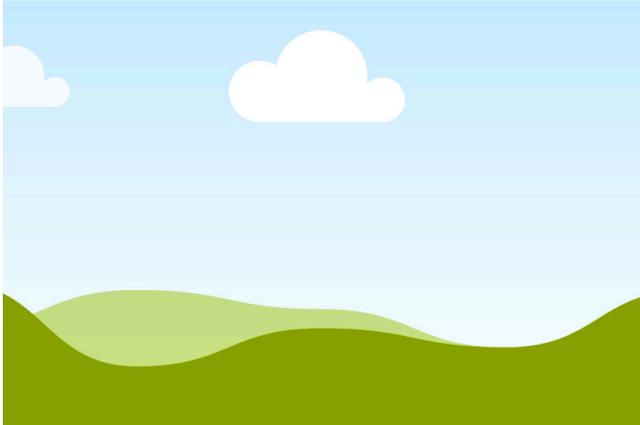

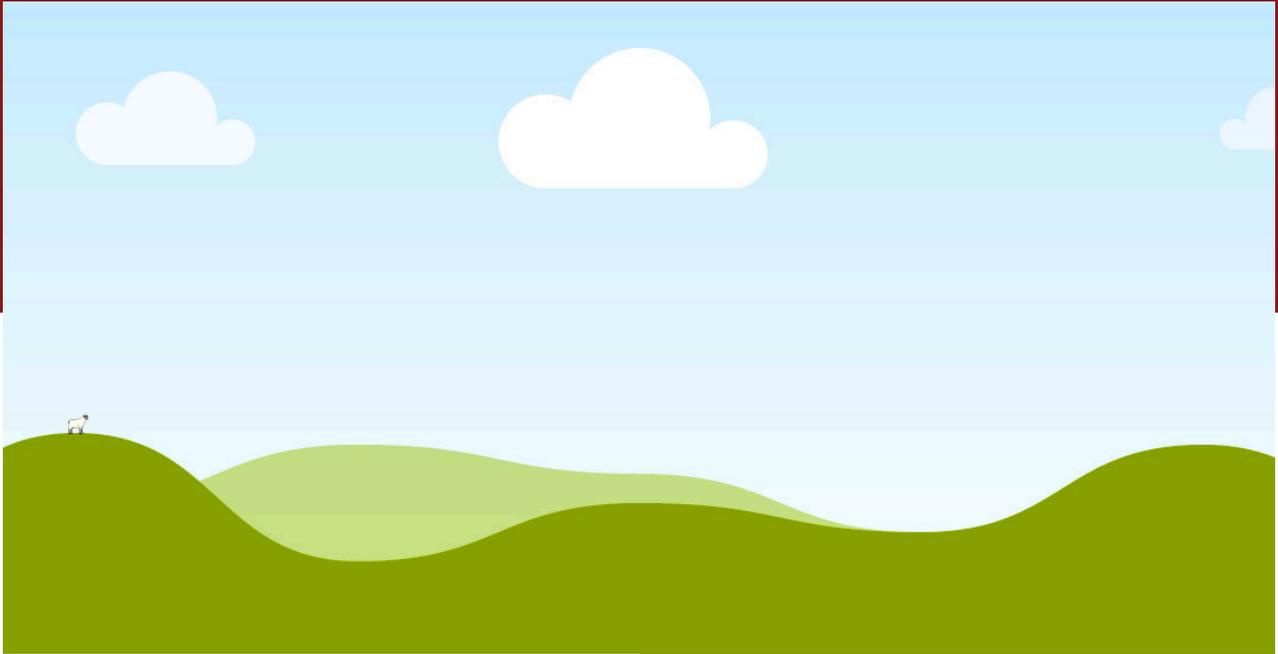

Only after approval are consignments released for export to Karachi.

On arrival, fabrics undergo secondary inspection and controlled storage before production begins, ensuring flawless quality from start to finish.

TESTING & PRE-PRODUCTION

Our commitment to uncompromised quality begins long before cutting. Once all evaluations are complete, the fabric moves into production ready to be transformed into refined comfort.

Cut Sample Verification

- To ensure accurate pattern alignment and shrinkage control.

Washing Tests

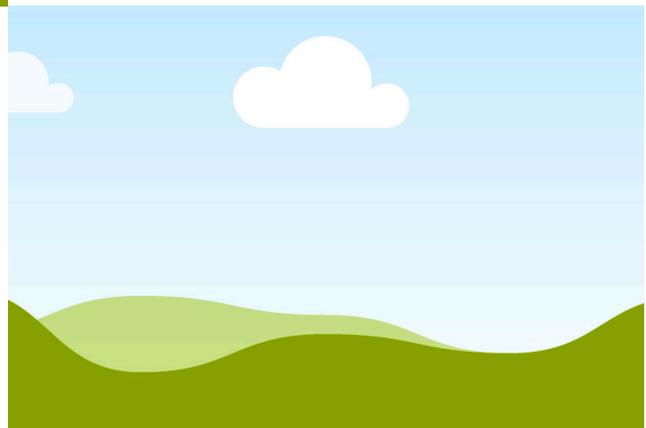

- To validate texture stability and color retention after repeated washes.

Color Fastness Tests

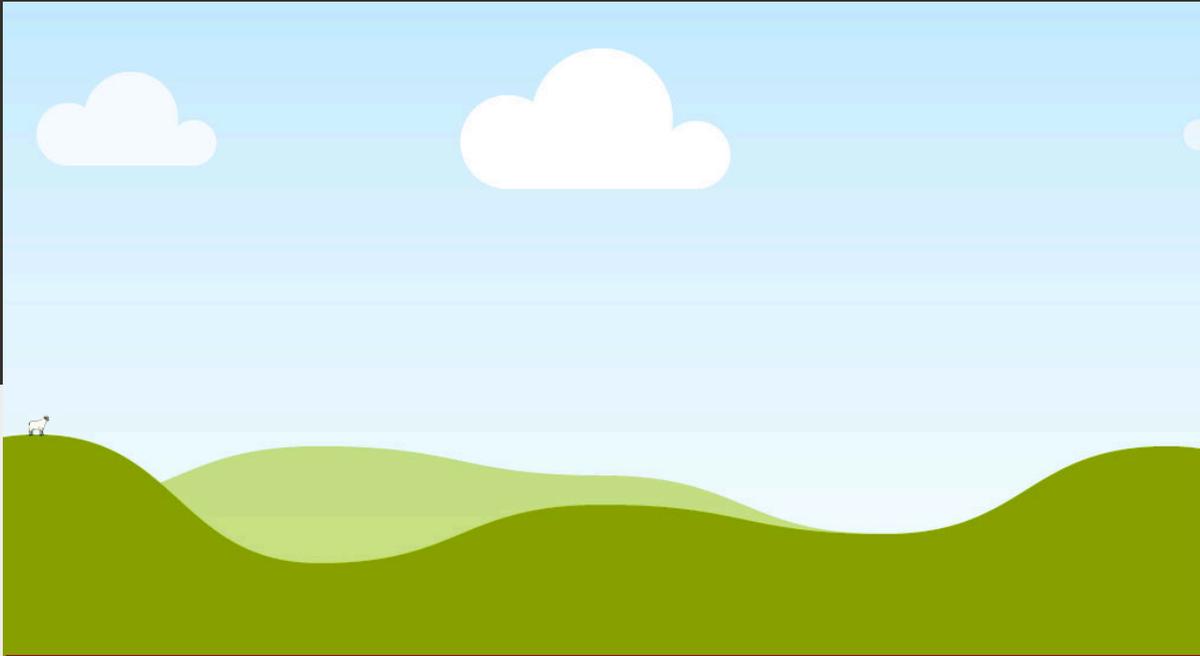

- To confirm consistency under light, heat, and friction.

GSM & Width Tests

- To meet international textile standards and buyer specifications.

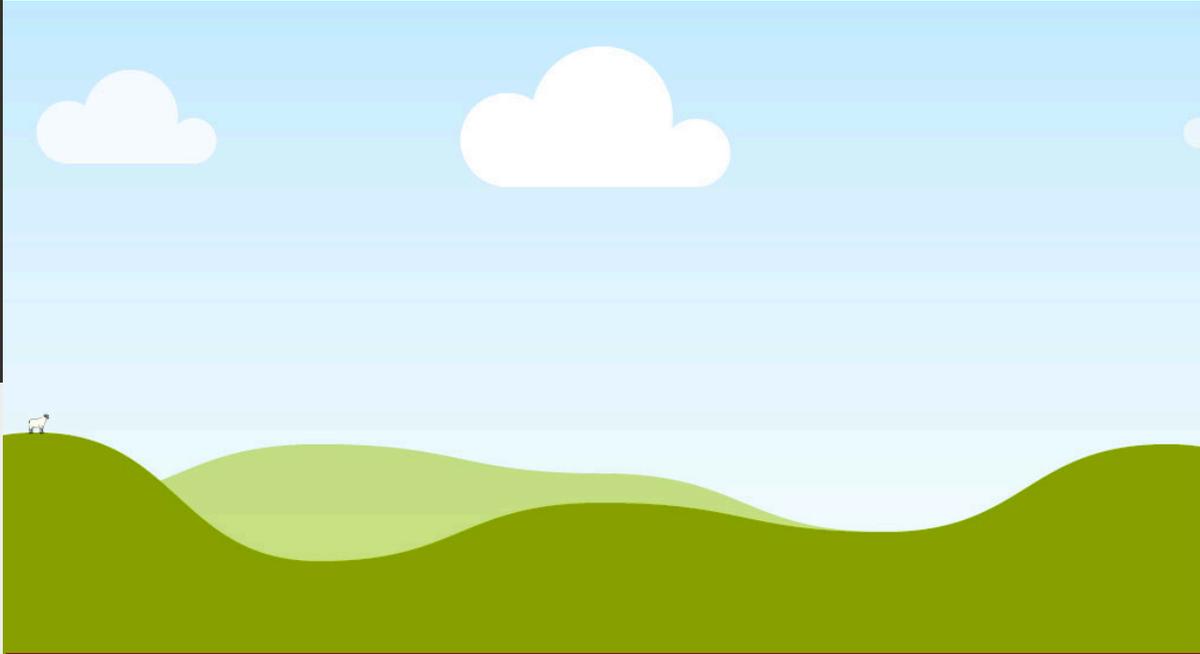

PRODUCTION JOURNEY

CUTTING DEPARTMENT

Imported fabrics are spread across large precision tables where automated and manual systems cut each layer to perfect dimensions. Every sheet is aligned for grain direction and symmetry, minimizing waste and guaranteeing consistency across every size and design.

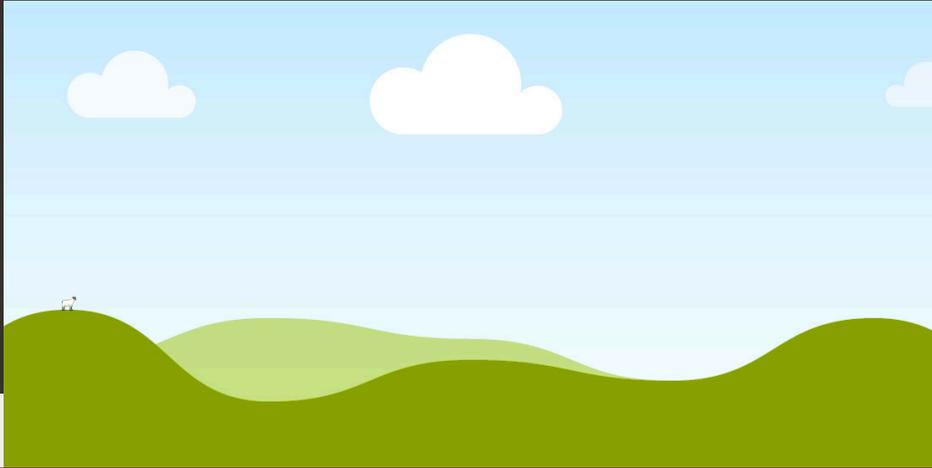

PRODUCTION JOURNEY

STITCHING DEPARTMENT

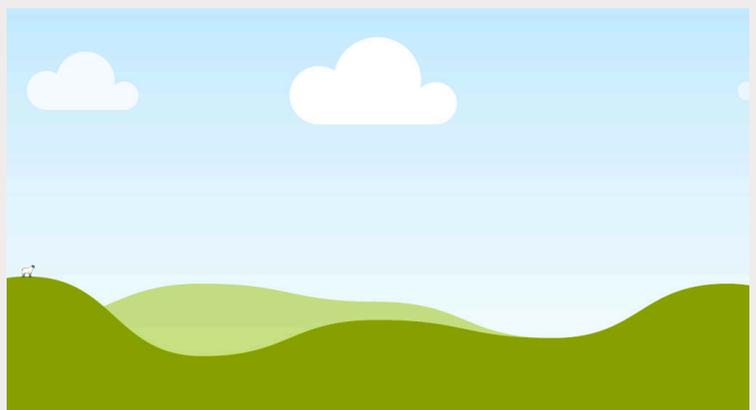

Our modern switch-track system optimizes workflow across multiple safety/singer machines. Operators craft diverse stitched sets standard, cuffed, piped, or frilled ensuring flawless seams and lasting durability. Each piece passes through inline quality checks before moving forward.

PRODUCTION JOURNEY

CHECKING DEPARTMENT

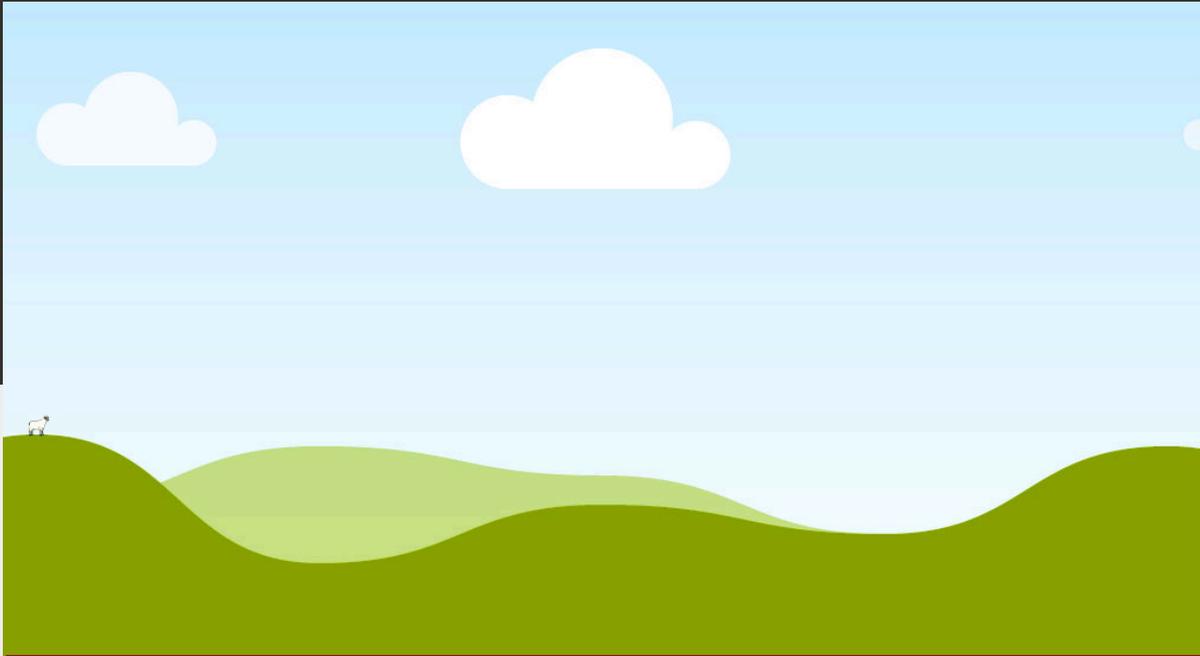

Our Checking Department ensures top-tier quality by examining seams, stitching accuracy, and fabric quality. Only pieces that meet our export-grade standards proceed to the next stage.

PACKING DEPARTMENT

Presentation meets precision in our dust-free Packing Unit. Products are folded and sealed with branding or eco-friendly packaging options. Barcode tracking and labeling ensure complete traceability and secure global delivery.

PRODUCTION JOURNEY

FINAL INSPECTION & DISPATCH

Each batch undergoes a final quantity and piece check to ensure every shipment meets exact client specifications before dispatch. Once approved, cartons are digitally recorded and loaded under supervision for safe shipment to destinations worldwide.

IN-HOUSE FACILITIES OVERVIEW

Behind every Ghia product lies a foundation of innovation and technical strength. Our in-house facilities combine advanced automation with expert craftsmanship enabling total control and consistency across production.

Polyester Wadding Plant

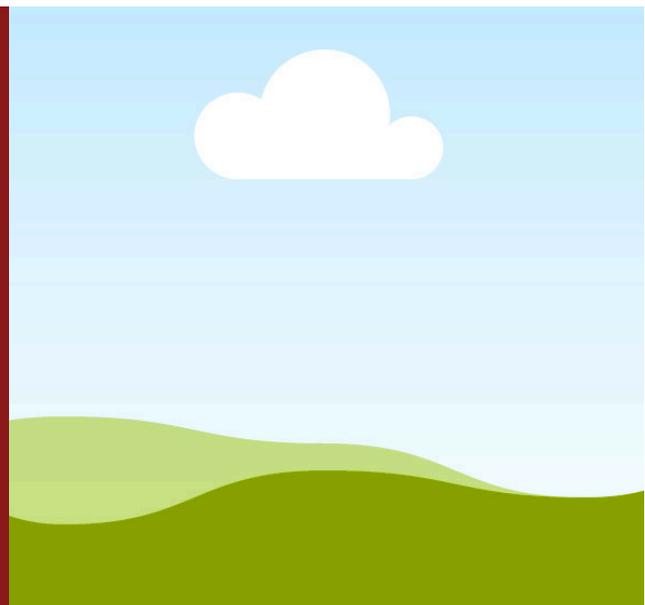

Imported polyester fibers are opened, blended, and layered into soft, even sheets using automated web-forming systems. Thermal bonding produces resilient wadding used in quilts, pillows, and comforters tested for uniform density and durability.

Monthly Capacity: 200,000 kgs

Needle Punching Felt Line

Thousands of fine needles interlock fiber layers mechanically to form high-density felt strong, flexible, and chemical-free ideal for insulation and padding.

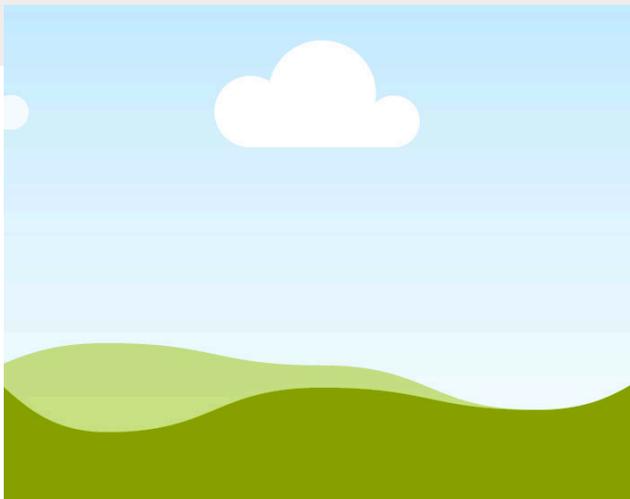

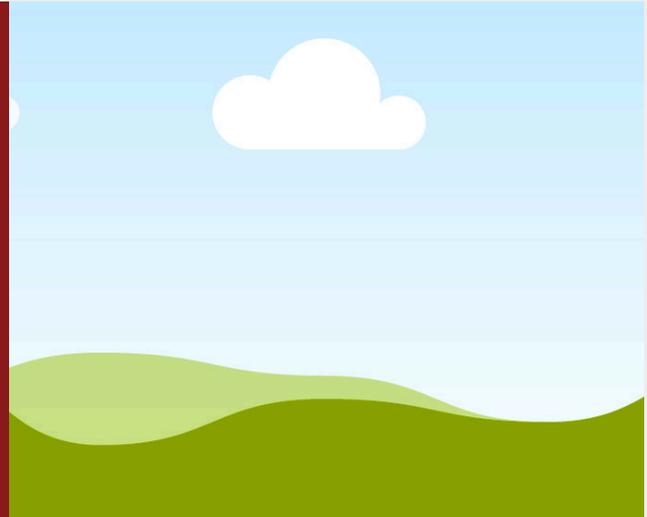

Monthly Capacity: 100,000 kgs

Multi-Needle Quilting Machines

Digitally programmed embroidery heads add artistic motifs and textures to quilted fabrics ideal for premium bedding and hotel collections.

Capacity: 400,000 kgs

Ultrasonic Quilting Machines

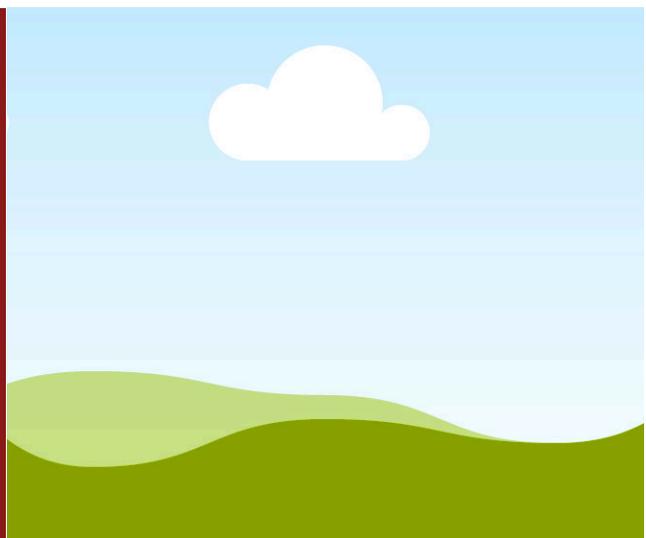

Using high-frequency waves, fabrics are fused without threads, forming seamless, durable quilts. Perfect for lightweight, modern bedding lines.

Monthly Capacity: 25,000 mtr

Air-Laid Quilting Line

Advanced non-woven technology distributes fibers via air pressure, creating ultra-soft and breathable webs that combine comfort with strength used in export-grade comforters.

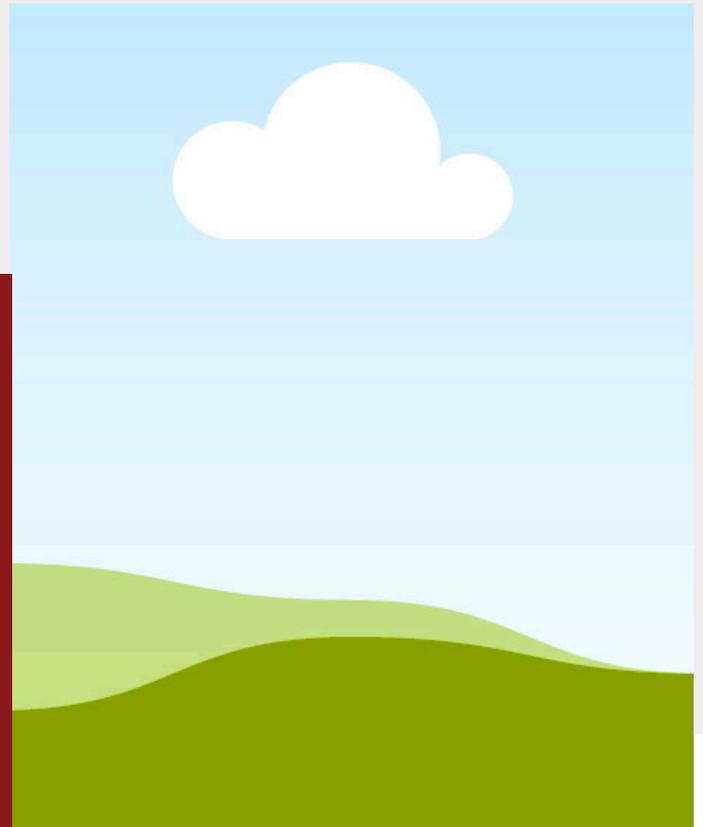

Monthly Capacity: 400,000 mtr

Ball Fiber Plant

Hollow polyester fibers are curled into smooth spherical clusters for long-lasting pillow and comforter fillings. Each batch is tested for resilience and softness.

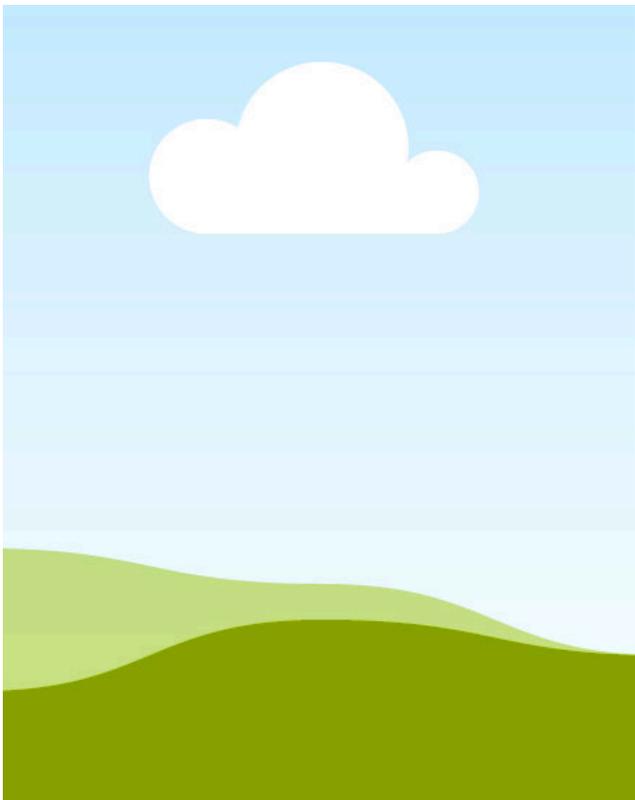

Monthly Capacity: 150,000 kgs

Pillow Filling Unit

Automated filling systems distribute ball fiber evenly into casings, with adjustable density for different client needs from ultra-soft to firm.

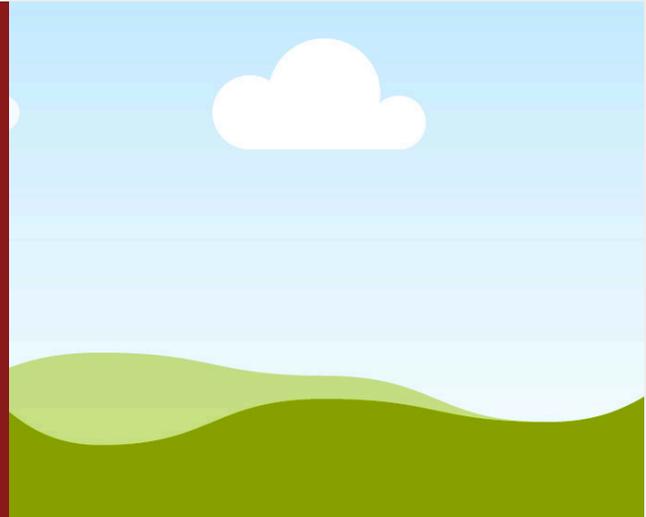

Monthly Capacity: 100,000 pcs

Direct Filling Line

A continuous filling system that injects fibers directly into stitched shells ensuring uniform filling and faster production cycles.

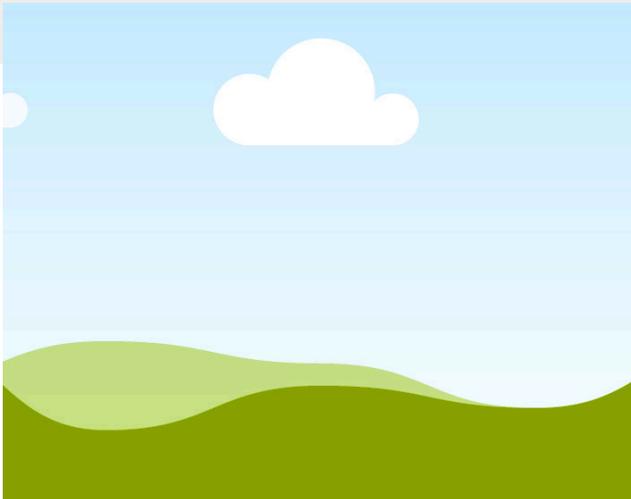

Monthly Capacity: 12,500 pcs

Comforter Filling Unit

Wadding or fiber is spread evenly within comforter shells before stitching and smoothing balancing softness and warmth.

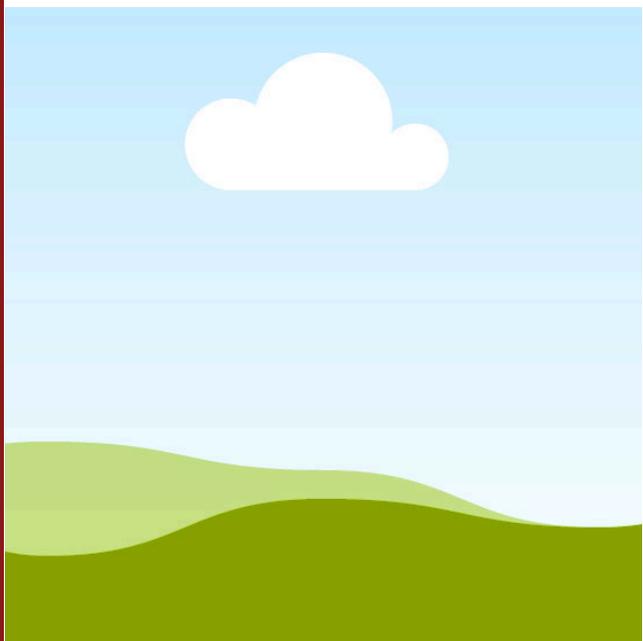

Monthly Capacity: 45,000 pcs

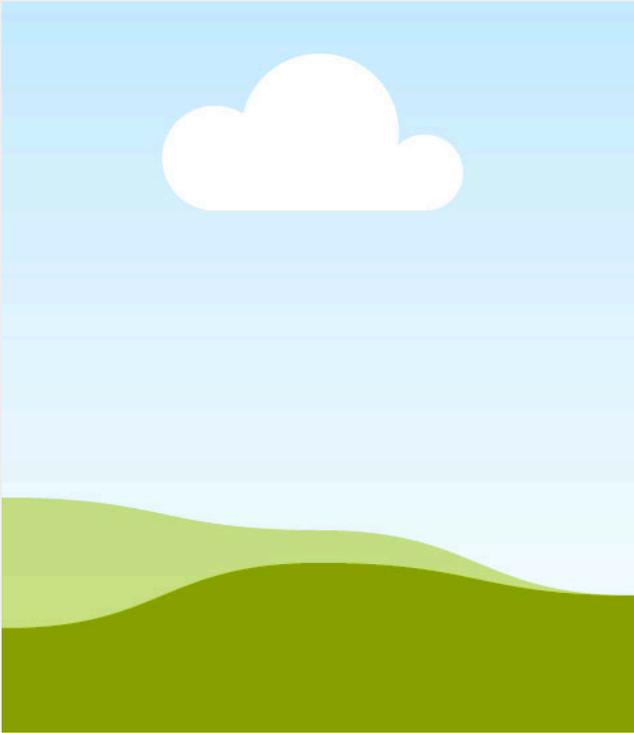

Single Needle Quilting Machines

For detailed and elegant patterns, our single needle machines handle intricate stitching with digital precision. From geometric to floral motifs, every design is executed with accuracy ideal for luxury and decorative bedding lines.

Monthly Capacity: 25,000 pcs

Comforter & Pillow Rolling

Automated rolling and wrapping systems prepare finished products for retail and export display. Each piece is compact, consistent, and ready for market presentation.

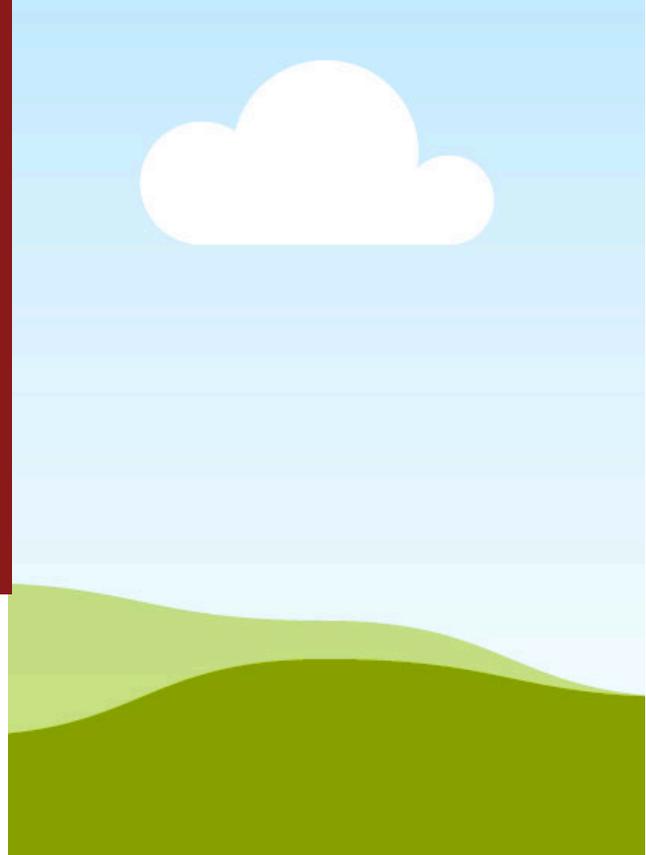

These fourteen in-house facilities empower Ghia Industries with full control over production from fiber to final product ensuring exceptional quality, efficiency, and scalability across global markets.

Maximum Monthly Capacity:
20,000pcs

Comforter & Pillow Compressing

Each comforter is vacuum-pressed and sealed to maximise shipping efficiency. Every pack includes product details and batch tracking, ensuring full export compliance.

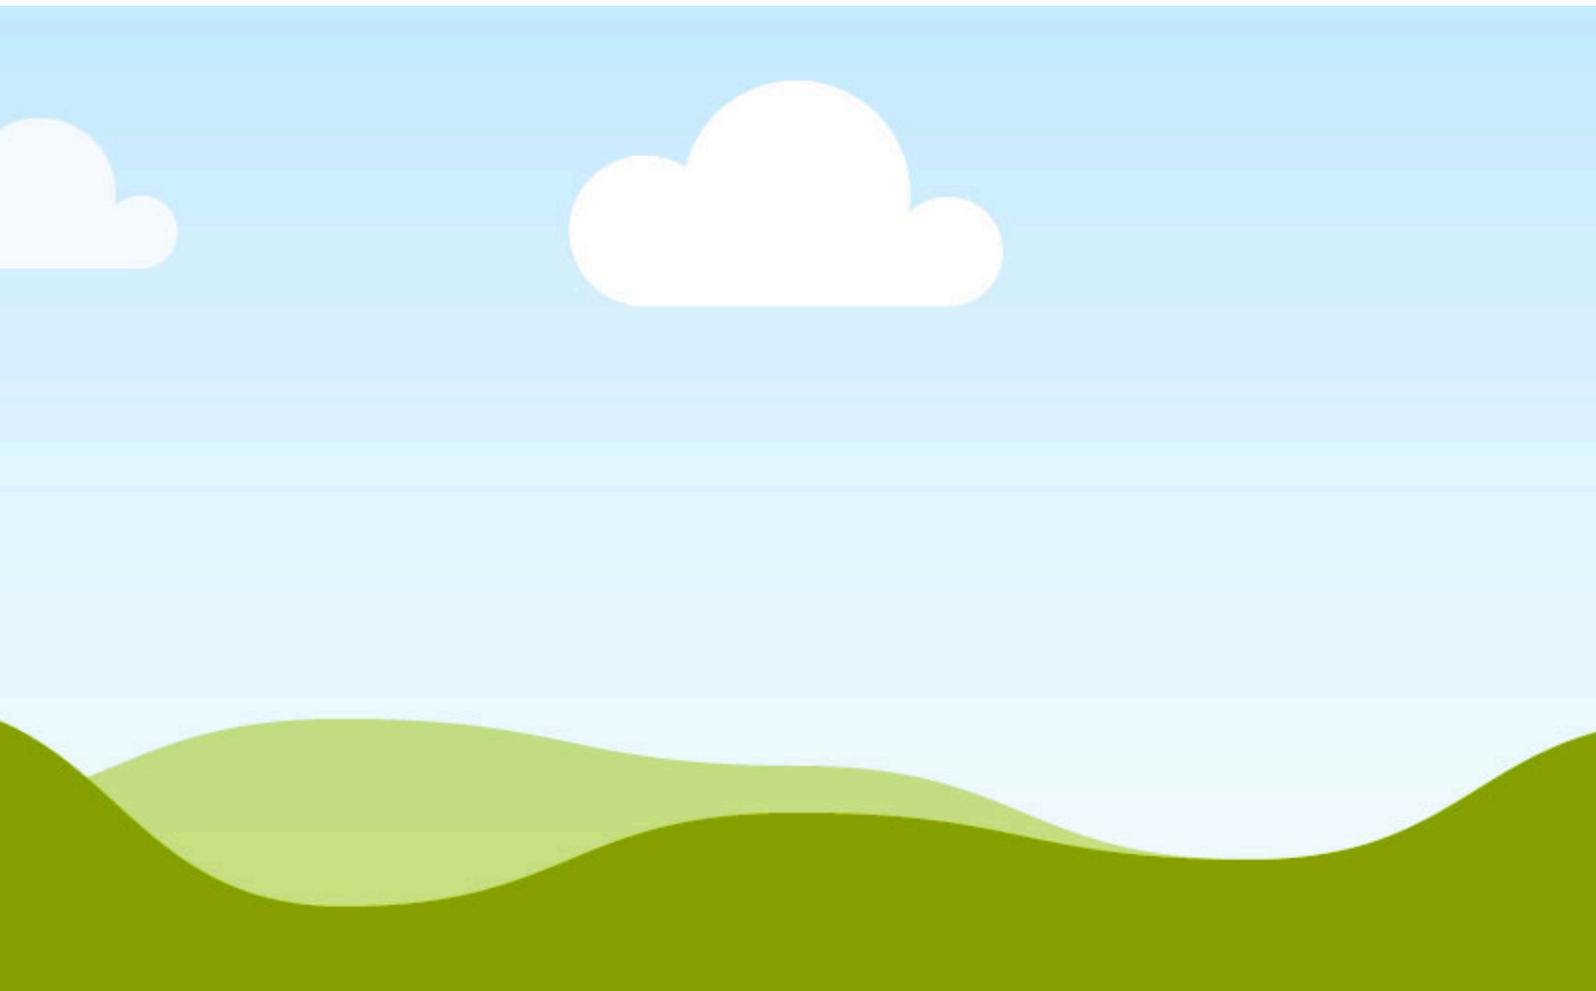

Maximum Monthly Capacity:
50,000pcs

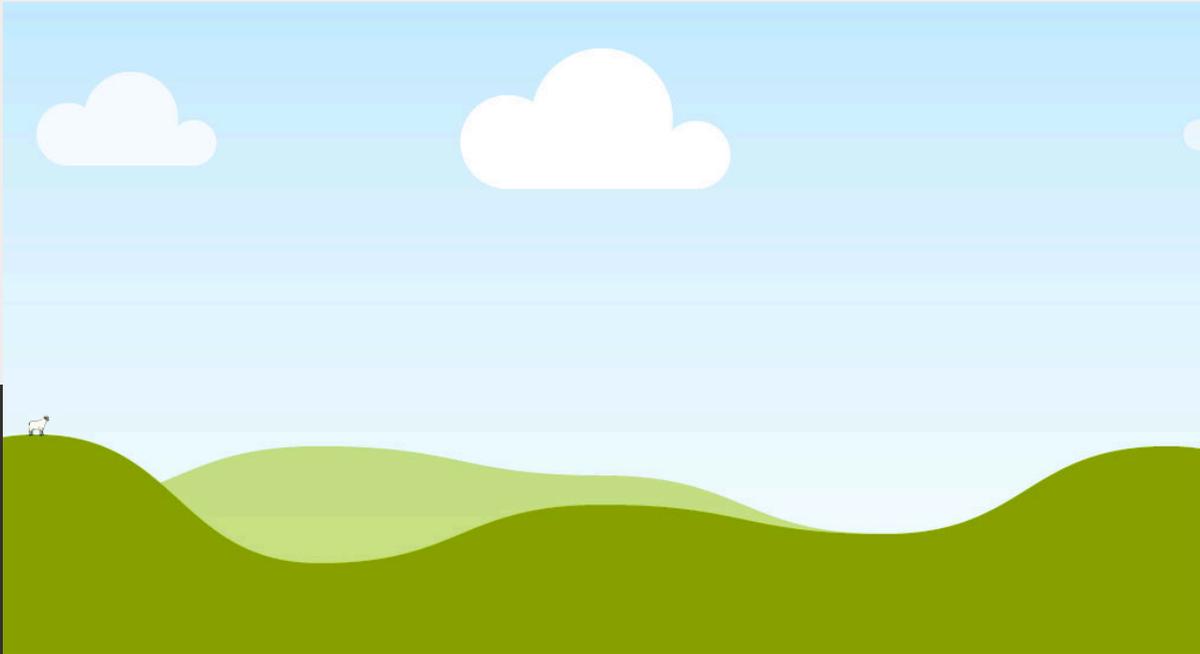

OUR PRODUCTS OVERVIEW

At Ghia Industries, every product embodies our promise of comfort, craftsmanship, and quality. Our manufacturing expertise spans across a versatile range of quilted and filled textile products designed to meet international standards and diverse client needs.

From bulk export orders to custom collections for hospitality, healthcare, and retail, we deliver excellence in every stitch.

MULTI-NEEDLE QUILTED PRODUCTS

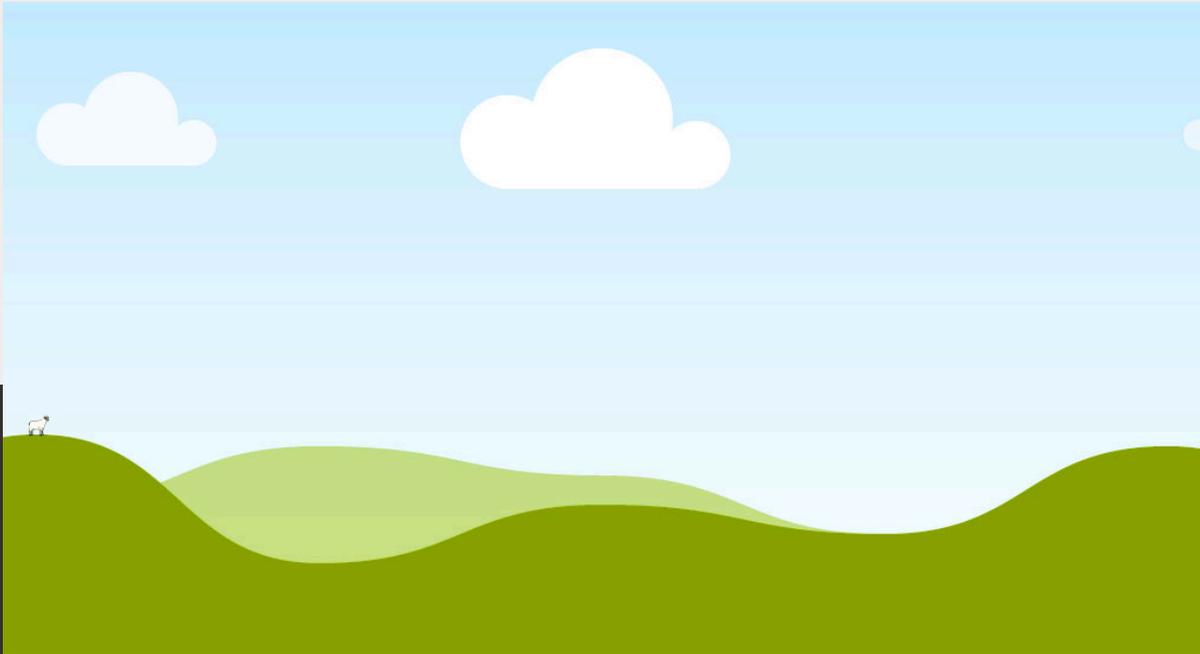

Our multi-needle quilting machines enable the production of large-scale, uniform designs tailored to customer specifications. Each item reflects durability, precision, and design versatility.

Design Size: 1" up to 12"
Available Width: Up to 3.25 meters

Items: Bedspreads, mattress protectors, pillow protectors, summer quilts, and garment products
Monthly Capacity: Approximately 400,000 meters

With a combination of technical accuracy and aesthetic appeal, our quilted products add elegance and texture to modern living spaces.

ULTRASONIC QUILTED PRODUCTS

Our ultrasonic quilting machines use high-frequency vibration to fuse fabrics without thread, producing sleek, seamless, and durable designs. This technology is ideal for lightweight and premium bedding collections.

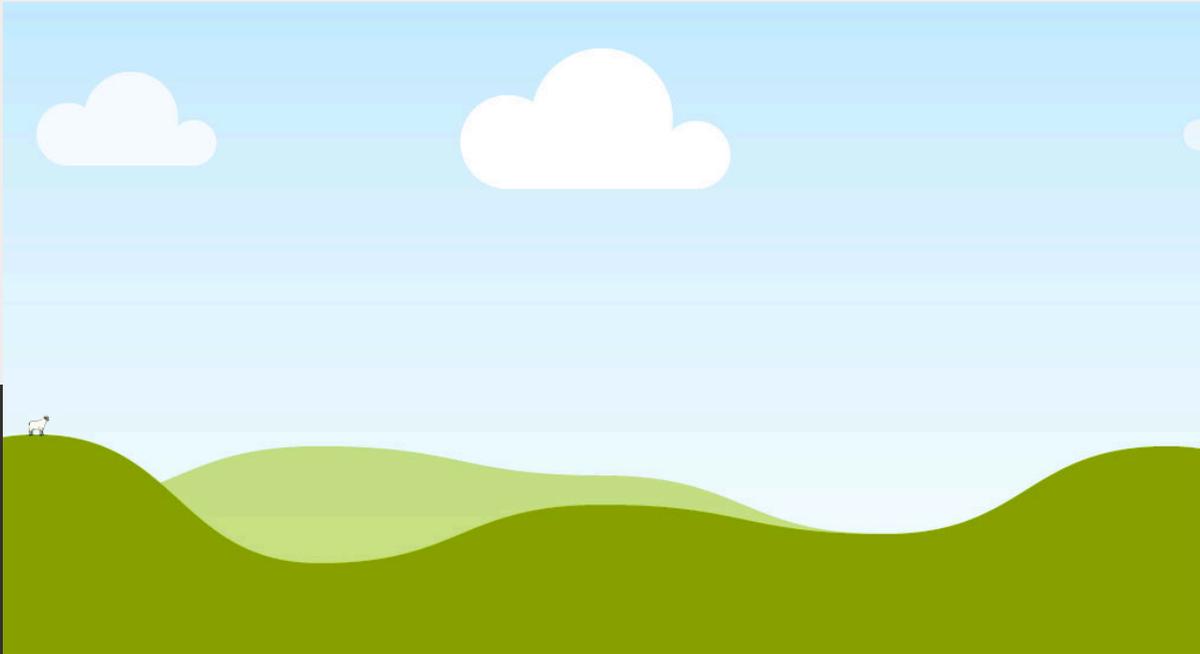

Design Size: 1" up to 12"
Available Width: Up to 3.25 meters

Items: Bedspreads, mattress protectors, pillow protectors, summer quilts, and garment products

Monthly Capacity: Approximately 25,000 meters

These products are celebrated for their clean, modern aesthetic and superior strength - perfect for clients seeking innovation and contemporary style.

COMFORTERS & QUILTED BEDDING

Our comforters and duvets are crafted for warmth, softness, and long-term comfort.

Each product is designed for homes, hotels, and healthcare institutions where both durability and luxury matter.

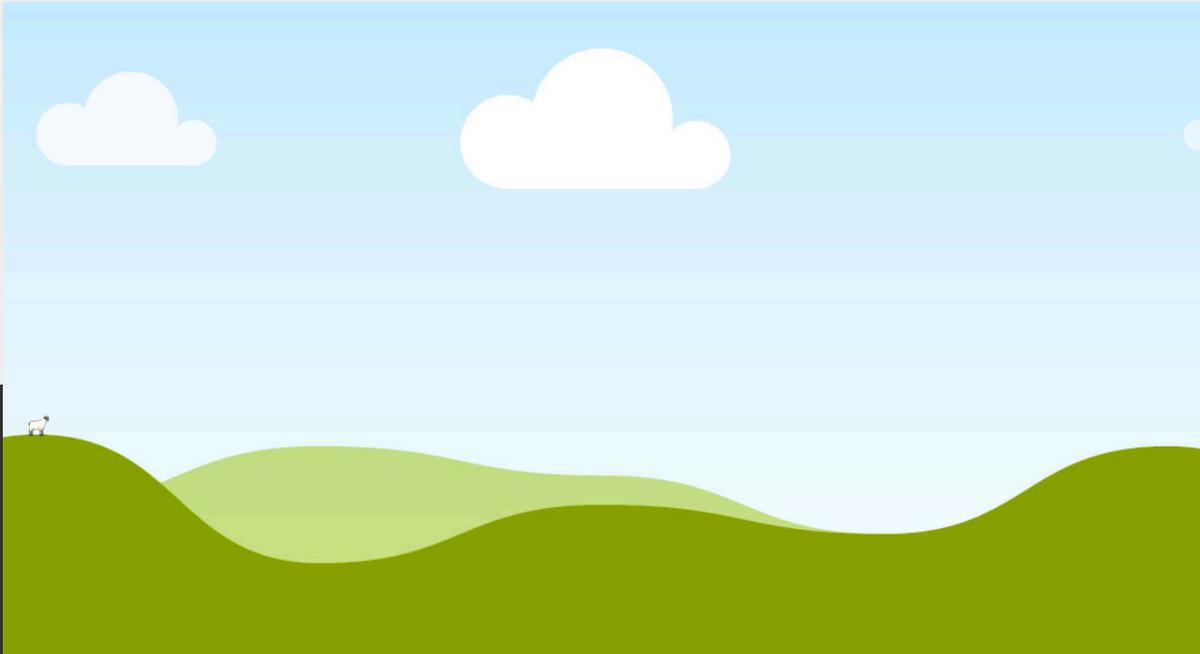

Items: Comforters, duvets, and mattress toppers

Sizes: Twin, Full, Queen, King, and California King

Monthly Capacity: Approximately 25,000 pieces

Soft fillings, fine stitching, and elegant finishes make our comforters the perfect blend of functionality and sophistication.

DYED BED SHEETS

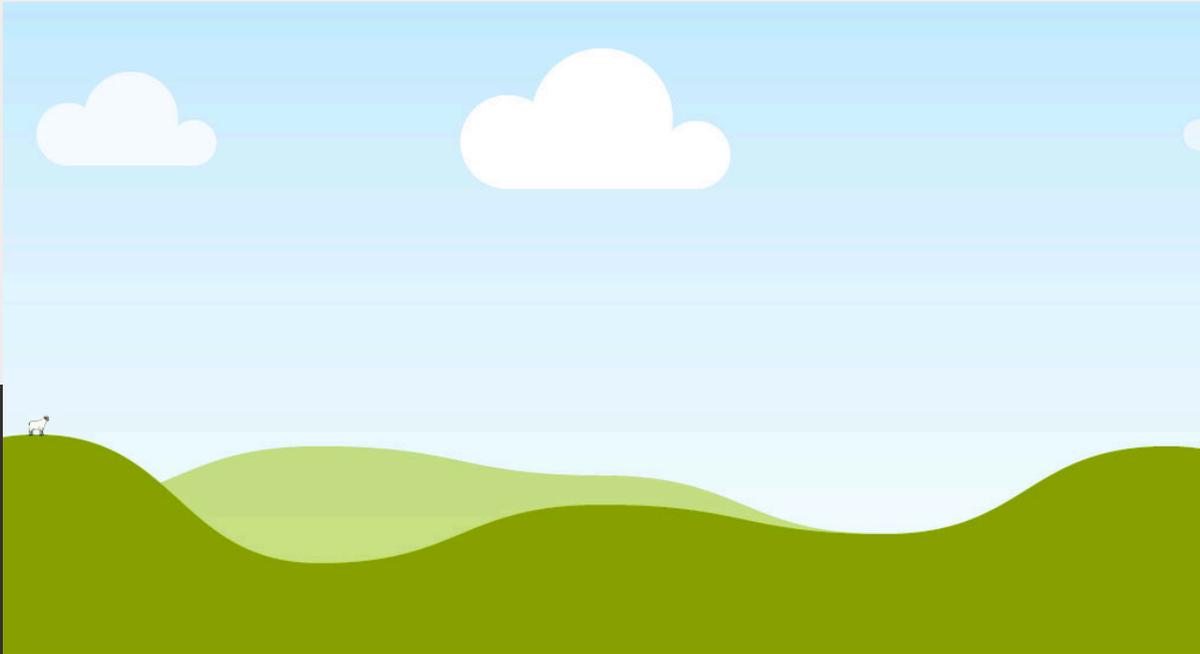

Our dyed bedding collection combines timeless design with exceptional comfort.

Crafted from premium fabrics, these bed sheets are durable, colorfast, and luxurious to the touch.

Sizes: Twin, Twin XL, Full, Queen, King
Monthly Capacity: Approximately 100,000 pieces

Perfect for home bedrooms, 5-star hotels, and healthcare institutions, our dyed bed sheets deliver the ideal balance of elegance and durability.

PRINTED BED SHEETS

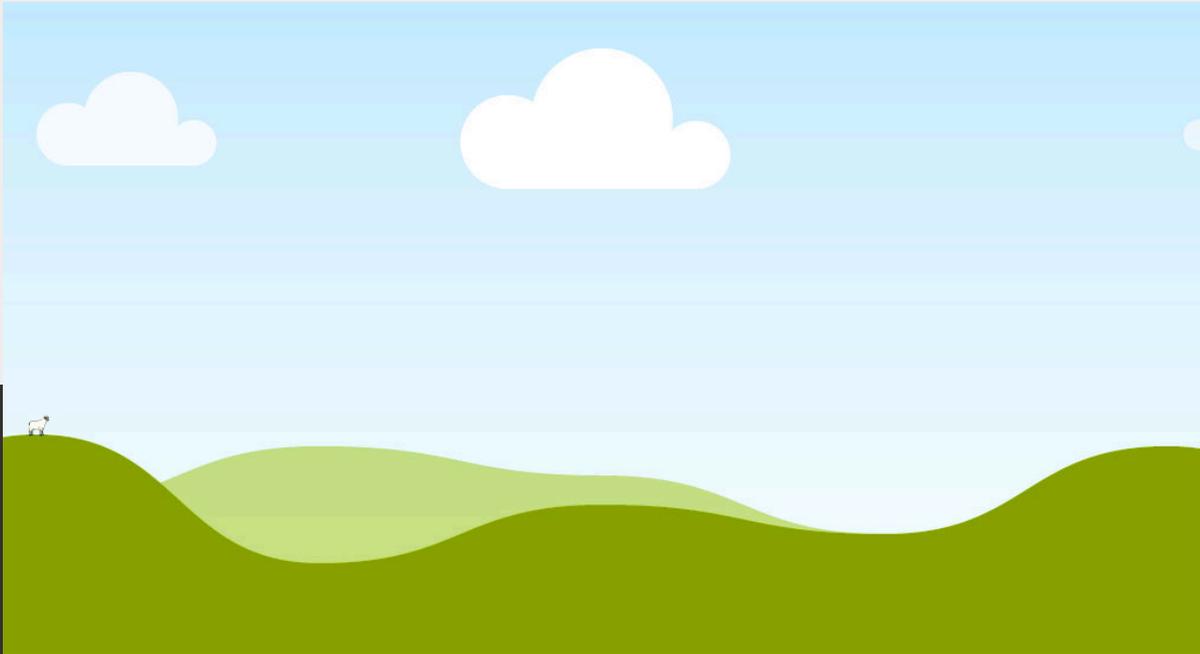

Vibrant, stylish, and durable—our printed bed sheets transform ordinary spaces into expressions of personal style. Produced using long-lasting, fade-resistant inks, they retain brilliance wash after wash.

Sizes: Twin, Twin XL, Full, Queen, King
Monthly Capacity: Approximately 100,000 pieces

Each print reflects modern trends and market preferences, catering to both local and international buyers who value originality and premium quality.

PILLOWS & CUSHIONS

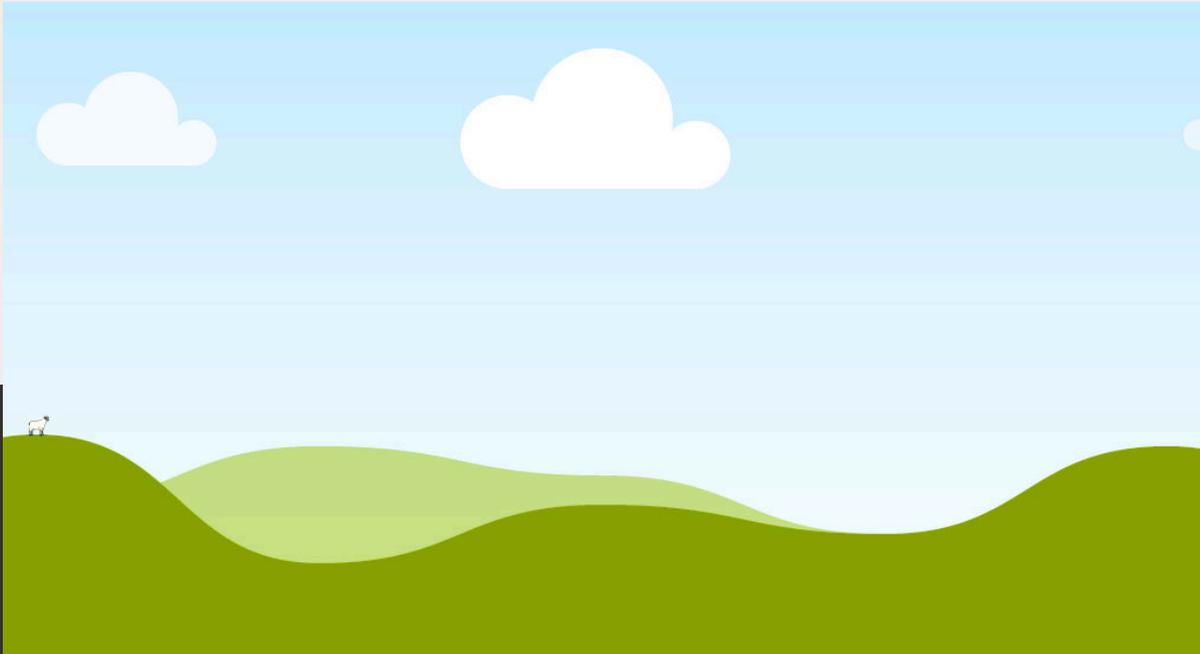

Versatile, plush, and expertly crafted—our pillows and cushions bring comfort and charm to any setting. From sofas to hotel suites, they are designed to maintain shape and softness over time.

Monthly Capacity: Approximately 100,000 pieces

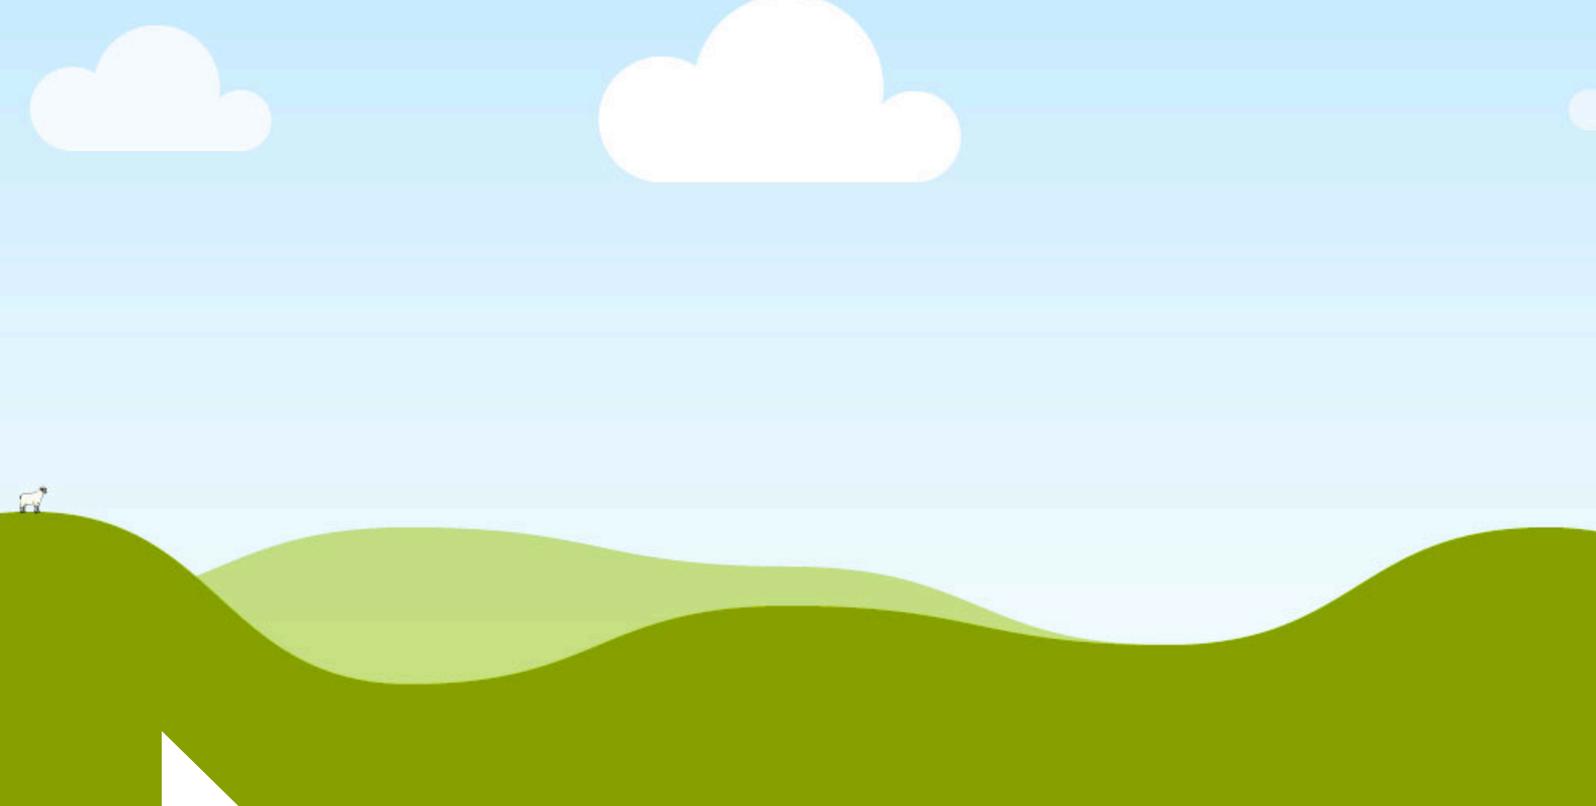

Whether for home décor, office seating, or export retail lines, our pillows add comfort and visual appeal to every environment.

PREMIUM WHITE COLLECTION

Our Premium White Collection is the definition of timeless luxury. Designed for elite hospitality and healthcare environments, this collection represents purity, refinement, and comfort at its peak.

Crafted from the finest materials, these white bedding products offer an unparalleled experience of softness and sophistication making them ideal for five-star hotels, hospitals, and luxury homes.

SUSTAINABILITY COMMITMENT

Sustainability is woven into our identity. At Ghia Industries, we continuously strive to reduce our environmental footprint while enhancing product quality and comfort.

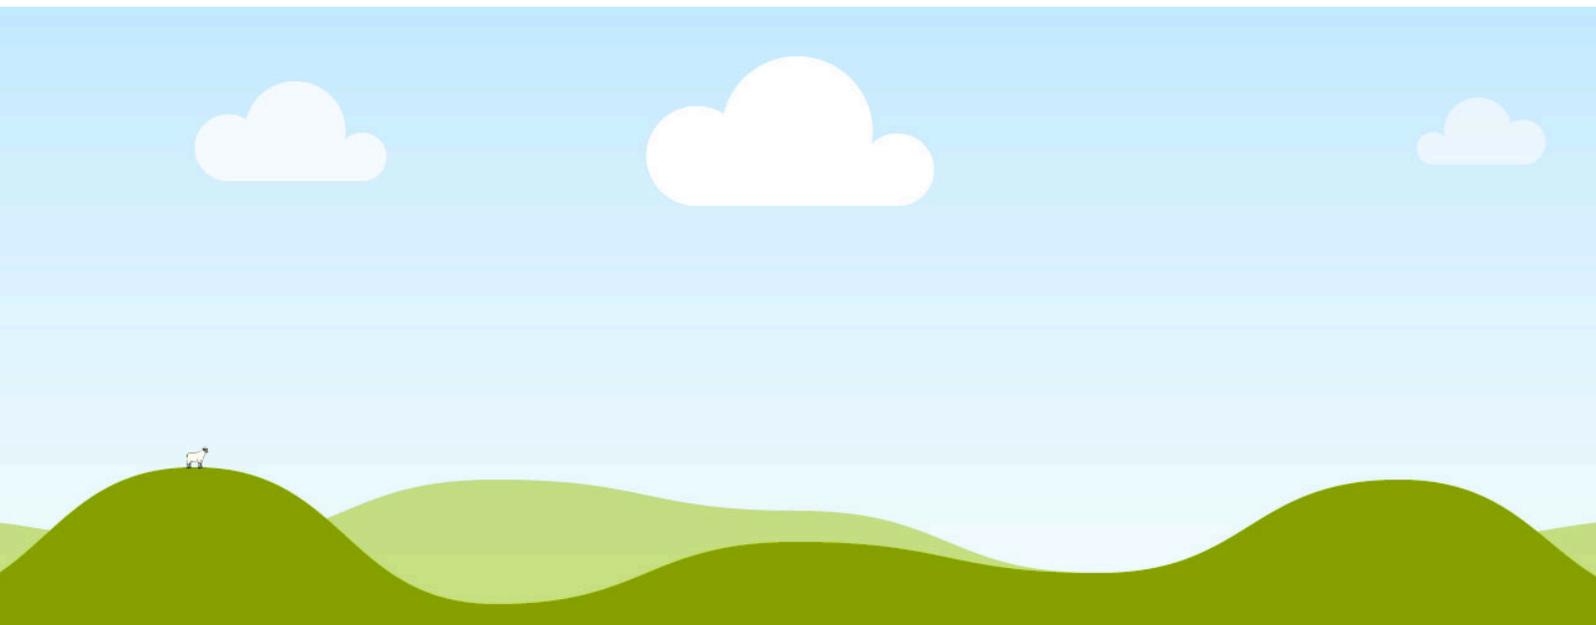

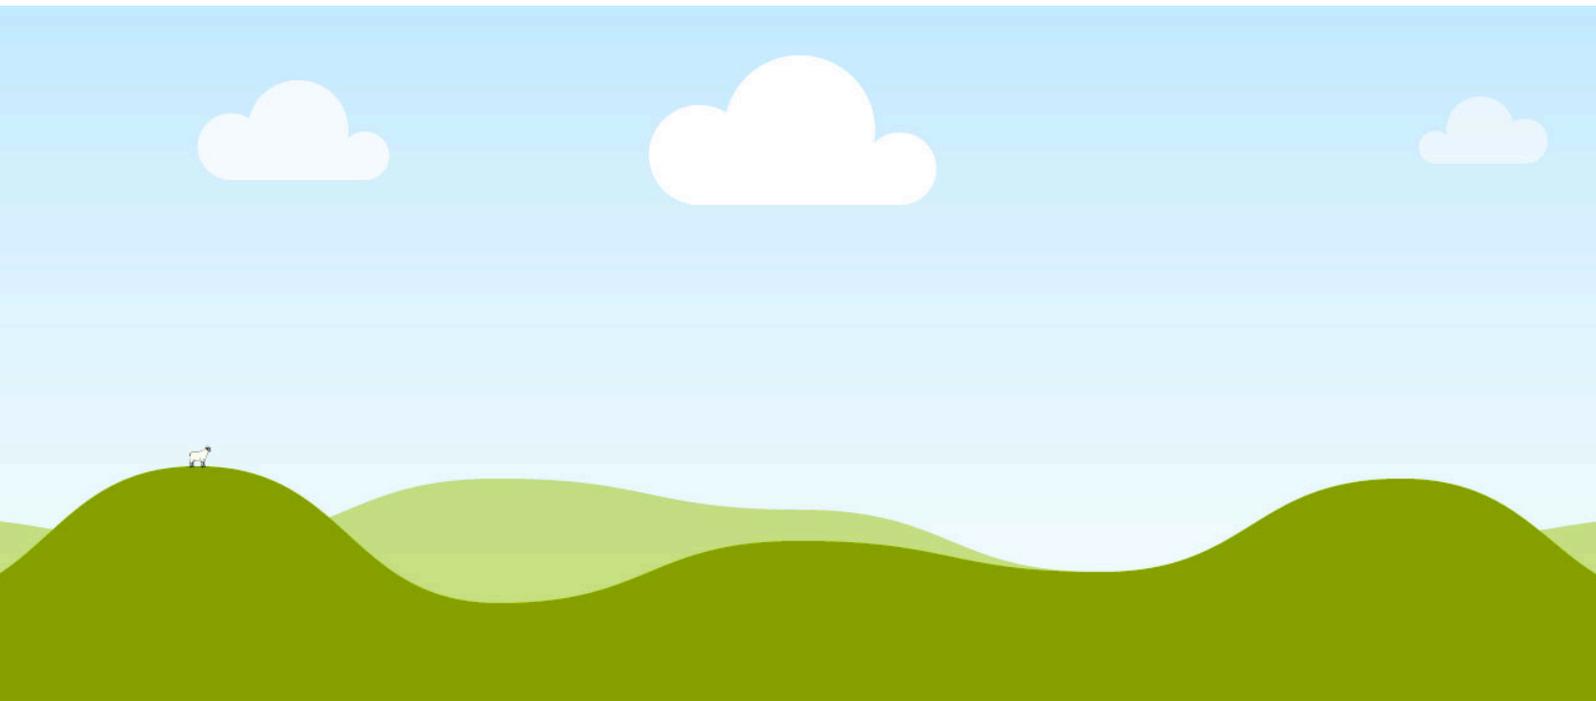

We employ energy efficient machinery, implement waste reduction protocols, and use eco-friendly packaging materials.

Our focus on recycling and responsible resource management ensures that every product aligns with global sustainability standards.

GLOBAL REACH

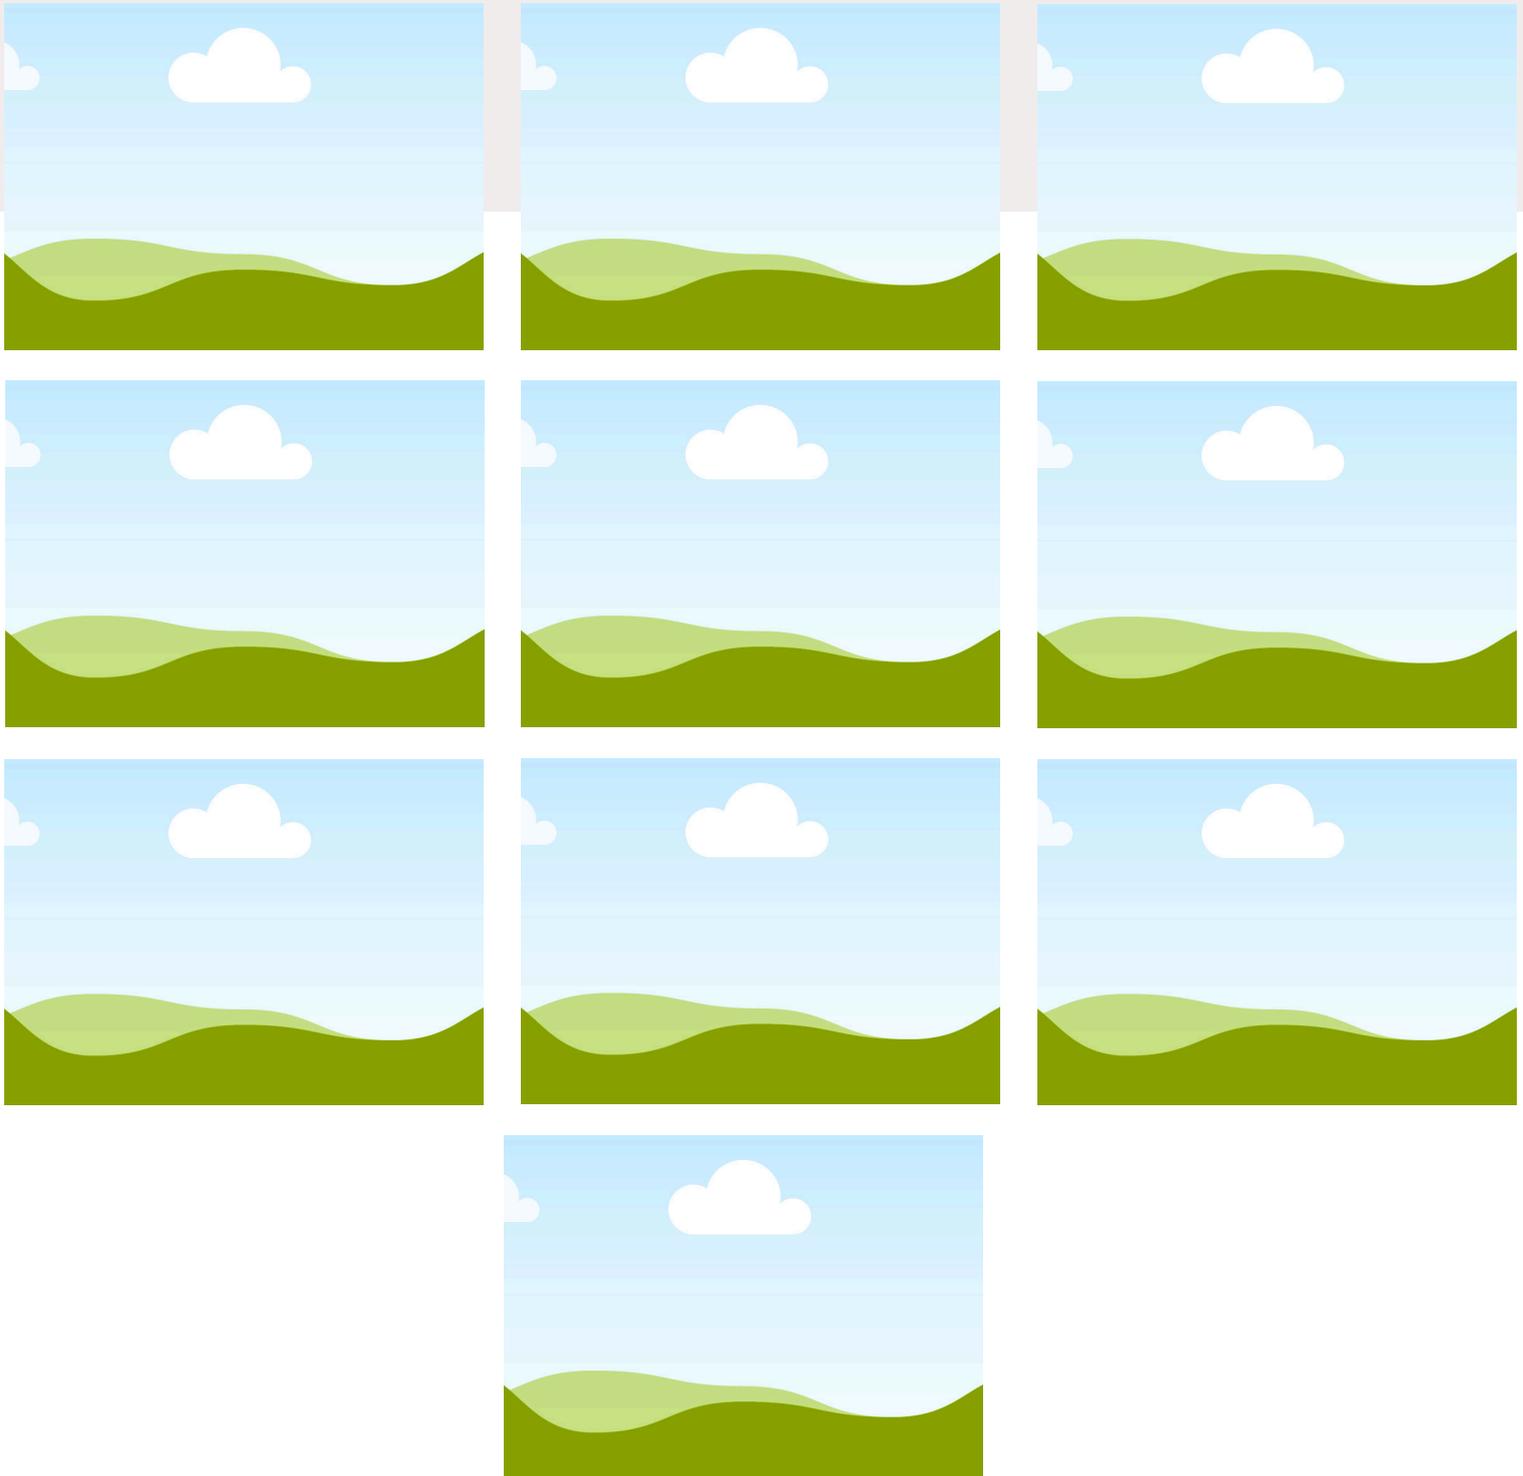

From Karachi to the world, Ghia Industries maintains strong global connections through trusted export networks.

Our products reach markets across Europe, the Middle East, Asia, and the Americas, catering to international retailers, hospitality groups, and institutional clients. We take pride in consistent, on-time deliveries and long-term partnerships built on trust, quality, and transparency.

OUR CUSTOMERS

Ghia Industries proudly partners with some of the most respected global brands and retailers.
